

PPC WEM Media Information 2010

PowerPlant Chemistry®

is an international scientific and technical journal for users in the entire power generation market. The first copy of this journal appeared in July 1999. Since then, PowerPlant Chemistry® has been issued monthly.

Power Plant Chemistry

is one of the fields which have consistently been involved in efforts to increase the reliability, availability, economic viability, and safety of power generation, as well as to reduce any negative environmental effects of power generation.

Waesseri GmbH
P.O. Box 433

Our Target Groups

- Fossil power plant operators
- Nuclear power plant operators
- Industrial co-generation plant operators
- District heating co-generation plant operators
- Independent power producers
- Component suppliers for the power generation industry
- Original equipment manufacturers (OEMs) supplying the power industry
- Power industry service suppliers
- Consultants active in the power generation market
- Architectural engineers (A&Es) working for the power generation market

Our Topics

Analytics, Chemical Cleaning, Chemical Thermodynamics, Component Failures, Condensate Polishing, Cooling Water, Corrosion, Cycle Chemistry Guidelines, Cycling & Peaking, Deaeration, DeNOx and DeSOx Processes, Deposition, Environmental Aspects, Flue Gas Cleaning, Fly Ash, Instrumentation, Ion Exchange, Layup, Monitoring, Physical Chemistry, Plant Cycle Chemistry, Sampling, Startup, Steam Chemistry, Troubleshooting, Wastewater Treatment, Water Treatment, and many other power plant chemistry-related topics.

Our Readers

End Users

in all types of power plants who are involved first hand in selecting and/or specifying and/or purchasing chemicals (e.g., water treatment chemicals, ion exchangers, catalysts), chemistry-related components or equipment (e.g., water treatment systems or subsystems, RO membranes), and services.

Component Suppliers

manufacturing and vending many components used in chemistry-related areas of power generation.

OEMs

manufacturing and/or purchasing components (e.g., analyzers and monitors), designing and/or manufacturing and purchasing chemistry-related systems and subsystems (e.g., water and wastewater treatment systems, DeNOx catalysts, DeSOx systems), and purchasing turnkey power systems.

Service Suppliers

dealing with maintenance, operation, analytics, or other chemistry-related services for the power generation industry.

Consultants

advising customers on the purchase of products, equipment, and services.

A&Es

specifying components or systems or recommending the purchase of components or systems vital for power generation.

All these people are decision-makers regarding the purchase of chemicals, ion exchangers, chemistry-related equipment and instrumentation, subsystems, systems, and services.

Mailing of Promotional Complimentary Copies to Private and Public Utilities in the United States of America and Canada

More than 1,300 fossil and nuclear utilities, industrial power plants, and operators of combined cycle power plants with heat recovery steam generators in the U.S.A. and Canada receive our journal. 2–4 complimentary journal copies are mailed per year to all plants which are not regular subscribers to our journal.

Mailing of Free Copies

average number (2007–2009) 25 copies per month

Total Circulation

Total circulation varies between 2,000 (minimum) and 2,300 copies (maximum) depending on the number of complimentary copies mailed in the respective month.

Since January 2006, the PowerPlant Chemistry® journal has been available – in addition to the printed version – as an e-paper. The e-paper is a complete replica of the printed issue including both the covers and all pages of the respective journal issue. Naturally, all ads printed in the hard copy also appear in the e-paper.

The number of subscribers to the digitized version of our journal (e-paper) is steadily increasing and reached 430 in August 2009. We do not expect this increase to markedly influence the number of subscribers to the printed journal, as most of the subscribers to the e-paper order both the hard copy and the e-paper.

Materials

We accept advertisements in digitized format only: PC files (Word/CorelDraw, fonts included), Macintosh files (QuarkXpress/Illustrator, fonts included), bitmaps (TIFF/EPS/JPG format, minimum resolution 300 dpi in the size as to be printed), and PDF files (high quality and high resolution).

General Advertising Conditions

The publisher reserves the right to approve, to accept or to refuse to publish any advertisement by any advertiser for any reason without explanation to the advertiser. All accepted advertisements are published under the understanding that the party placing such material is authorized to publish any and all such material.

All advertisements will be placed at the discretion of the publisher. A special positioning cannot be guaranteed except the positions printed in bold in the Advertisement Rate Chart. It is the publisher's general policy not to place any ads within the technical articles.

Multiple advertisement rates apply only for later ads. Previous ads are taken into consideration for a later rebate but cannot be rebated retroactively.

Additional Information

The printing process is offset printing. All delivered advertising materials have to be adequate for this printing process.

Ads not conforming to the standard formats will be corrected by the printing office. The advertiser will be debited with the respective costs. The same is true for any changes to the delivered advertising materials requested by the advertiser.

30 % of the advertisement rate is due if the advertisement is cancelled after the space reservation deadline or if the materials are delivered after the materials delivery deadline.

All payments have to be made within 30 days of the invoice date. An additional monthly fee of 1.25 % will be charged to all accounts not paid in full within the 30-day term. The purchaser (advertiser and/or agency) is liable for all fees and sums of collection, including but not limited to reasonable attorney's fees and court costs incurred by the publisher in the collection of said bills.

The place of performance shall be the corporate domicile of the publishing house. Unless otherwise required by law, the legal venue shall also be the corporate domicile of the publishing house.

CONSIDER OUR POWERFUL NEW INTERNET ADVERTISING SERVICE

Banners and Sponsored Links on Our Homepage

Our Homepage at www.ppchem.net is very frequently visited: 5,000–6,000 visitors per month generate about 15,000 hits per month. Banners and Sponsored Links are visible on all individual pages. It doesn't matter if the visitor is reading the abstracts of the current or of any past issues of the journal, is checking the subscription rates, etc. – he/she will still have your banner or your link with a short slogan in front of his/her eyes. Since all human beings are curious, he/she will eventually click on your link.....

The monthly fee for a Banner is €250, and for a Sponsored Link €250. The reduced annual fees are only €2,500 for a Banner or a Sponsored Link. Please consider this simple and inexpensive way of promoting your products and services and increasing your sales.

You may order this service by e-mail to info@waesseri.com
