

The Second International Conference

Instrumentation for Power Plant Chemistry

Mövenpick Hotel Stuttgart Airport, Stuttgart, Germany

November 15–17, 2010

TO WHOM IT MAY CONCERN

We are pleased to invite your organization to be one of a limited number of sponsors and exhibitors at the 2. International Conference "Instrumentation for Power Plant Chemistry" which will be held at the Mövenpick Hotel Stuttgart Airport, Stuttgart, Germany, November 15–17, 2010.

This conference is the ultimate power plant conference on instrumentation. It features experts addressing all topics related to instrumentation, with a distinguished list of attendees. The Conference agenda includes topics of interest for fossil and nuclear power generators in utilities as well as for independent power producers and industrial power and steam producers.

Communicate directly with the leading experts in the plant instrumentation area – this is the conference at which to make your products or services known. Whether you are an instrument producer, designer or developer, wholesale or retail marketer, electric utility, industrial power and steam generator, water treatment equipment manufacturer, original equipment manufacturer, state organization, consulting firm, service provider, architectural engineer working for the power generation market, association for technical inspections, or a nonprofit organization, you won't want to miss this opportunity.

There are three ways that your organization can participate:
